

In December 2018, we organized a two-days Christmas program for the children and young adults at the Center for the Temporary Placement of Children. 13 children and teenagers from the Placement Center had an hour of fun at the ice rink and loved it. We also bought them small gifts and organized Christmas activities at the Placement Center the next day.

Here is what Andrei P., a member of the Youth Club “Fakel” said in his words of gratitude to the donors who supported the event: **“without [your support] ... we would not have been able to see the smiles of those children whose lives got shattered ... we would not have been able to bring them happy moments, joy, and simply cheer them up.”**

In 2018, Ormos Charity entered into a partnership with the St. Tikhon Social Center by the Donskoy Monastery in Moscow. The new partnership was formed to support the educational, recreation, spiritual and other intervention programs for the young offenders in the Russian Federation.

In partnership with the St. Tikhon Social Center, we purchased 8 electronic books and an interactive whiteboard for the Youth Detention Center in the Russian town of Kolchugino in September 2018.

We thank all our supporters, partners and friends for their support!
